

MAHJOUB SALMA

Computer Engineering Student – Mobile Information Systems

7, Rue des Rossignols, Ariana 2080 • 25-305-902 • mahjoub2003@gmail.com

 salma-mahjoub

 salma-mahjoub

PROFILE

Computer engineering student specializing in Mobile Information Systems, passionate about mobile development, artificial intelligence, and the design of innovative digital solutions. Seeking an engineering internship (Summer 2026) focused on development and the realization of a technically impactful project.

EDUCATION

Engineering Degree in Computer Science – ESPRIT 2024 – 2027
Specialization: Mobile Information Systems — 2nd year (2025–2026)

Integrated Preparatory Cycle – ESPRIT 2022 – 2024
Information Technologies

Scientific Baccalaureate – Lycée Rue El Attarine, Ariana 2022
Honors: Good Standing

ADDITIONAL TRAINING & CERTIFICATIONS

- Mobile Development Training – Flutter – Orange Digital Center (2025)
- Machine Learning Certification – GOMYCODE (2023)
- CCNA: Introduction to Modern AI – Cisco (2025)
- CCNA: Switching, Routing, and Wireless Essentials – Cisco (2025)

PROFESSIONAL EXPERIENCE

ABAP Developer Intern – SIRYOS (SAP Gold Partner) June – July 2025

- Developed an application based on the ABAP RESTful Application Programming (RAP) model
- Implemented business logic using Behavior Definitions and Projections
- Set up security layers using CDS Access Controls and authorization objects
- Managed advanced transaction handling: EML, ETags, and custom error management

Marketing & Data Analysis Intern – Ipsos MENA Summer 2023

- Conducted quantitative and qualitative data analyses
- Contributed to writing reports and presenting strategic insights

PROJECTS

SamOps – FinOps Cloud Optimization Platform 2026 – Present
Next.js, Go, Node.js, Python, LLMs, AI Agents, AWS, Vercel — samops.app

- Designed an agentic FinOps platform for real-time cloud spending monitoring (costs, instances, infrastructure metrics)
- Integrated an AI-based anomaly detection model to automatically identify unusual spending behavior
- Automated source code and Terraform configuration analysis to detect optimization opportunities
- Deployed frontend on Vercel and cloud components on AWS

Styleto – AI-Powered Fashion Mobile App

2025–2026

SwiftUI, Kotlin Jetpack Compose, NestJS, MongoDB

- Designed and developed a cross-platform mobile application powered by artificial intelligence
- Implemented automatic clothing detection using computer vision
- Built a personalized outfit recommendation system based on user style preferences
- Developed virtual try-on functionality and digital wardrobe management
- Built a NestJS backend handling user management, item catalog, and interactions
- Integrated a marketplace with real-time messaging

WeFarm – Smart and Sustainable Agriculture Platform

2024–2025

Symfony, JavaFX

- Developed a web and desktop solution tailored for farmers
- Covered harvest management, recruitment, and climate monitoring
- Project selected among the best at the ESPRIT Project Showcase (Bal des Projets)

Multilingual Intelligent Chatbot – IHEC Hackathon

January 2025

- Developed a multilingual chatbot using NLP techniques
- Worked in a team under strict time constraints

SKILLS

Languages: Java, Python, C/C++, C#, JavaScript, PHP, Kotlin, Swift, Go, ABAP

Mobile: SwiftUI, Jetpack Compose, Flutter, React Native

Web & Backend: NestJS, Symfony, .NET, Next.js, REST APIs

Databases: MongoDB, PostgreSQL, SQL, Firebase

AI: Machine Learning, NLP, Computer Vision

Tools: Git, Linux (Ubuntu), UML, Android Studio, Xcode, IntelliJ, VS Code

SAP: ABAP, RAP

LANGUAGES

Arabic (Native) • French (B2) • English (B2) • Spanish (A2)

AFFILIATIONS & ACTIVITIES

Member – IEEE CIS Chapter

2025

Participant – IHEC Chatbot Hackathon Challenge

January 2025

INTERESTS

Music (kanun, piano, guitar), Photography, Travel, Animals
